

The Fullness of His Love

Fullness

When He leads me through the val - ley, When He hides me in His hand
When He shields me in His mer - cy, When He guards me by His grace
When He keeps me in His kind - ness, When He holds me to His heart,

As the waves are crash - ing o'er me Till I can no long - er stand,
From temp - ta - tion rag - ing round me In this dark and sin - ful place,
O the bless - ing of His good - ness And the peace He can im - part.

Then I rest up - on His good - ness In the sweet - ness of His love
Then I lean up - on His pow - er Strong - er than the strong - est pull
Then I whis - per in the still - ness, "Here I am, O Lord, Thine own."

And I look for all His kind - ness Point - ing me to look a - bove.
And I taste through dan - ger's ho - ur All His na - ture pure and full.
And He shows to me a full - ness Of His love I had not known.
